## for the Year Ended 30th September, 2021

### Chairman's Report to the Shareholders of Agostini's Limited

As the world enters its third year of the COVID-19 pandemic, we are reminded of the devastating impact the virus has had on families, organizations and economies. Like all countries, Trinidad and Tobago has had to manage through the challenges this Novel Coronavirus has brought with it, which has proved to be "novel" in more ways than one. As I write this report, the virus continues to be ever present, however, the scientific evidence is clear that the most effective weapon against the worst effects of COVID-19 is vaccination. Continued vaccine hesitancy really is "the triumph of hope over experience" to borrow a quote from Samuel Johnson, and we continue to encourage those who remain unconvinced to accept the irrefutable evidence and get vaccinated.

I think that it would be fair to say that for a company that has been in existence for over 96 years, Agostini's has experienced more than a fair share of the challenges that all businesses encounter. While COVID-19 has been somewhat unique in that it has been both a health and economic event, in 2021, our company once again demonstrated its strength and resilience, as we responded to the dynamic conditions in our markets. We remained agile and adaptive as governments across the region employed varying strategies to tackle the effects of the pandemic, and most importantly, we remained focused on achieving our two core objectives: sustainable long-term growth and financial strength.

For the financial year 2021, sales increased by 5% from \$3.43 billion to \$3.61 billion and profit attributable to shareholders increased by 13% from \$126 million to \$143 million, after taking into account acquisition and restructuring costs of \$12 million – these costs were in relation to the acquisition and integration of Oscar Francois Limited, Intersol Limited and ProCom Limited, as well as restructuring costs at our pasta manufacturing operation.

#### 2021 Highlights

- Sales increased by 5% to \$3.6 billion
- Profit before tax increased by 16%
- Profit after tax attributable to shareholders increased by 13%
- Earnings per share increased from \$1.83 to \$2.07
- Debt to Equity Ratio of 6:94
- Operating cash flow of \$217 million
- Return on equity improved from 10.8% to 11.3%
- Dividends increased to \$0.90 per share from \$0.80
- Acquisition of Oscar Francois Limited and Intersol Limited, with Oscar Francois having now been integrated into Smith Robertson and Company Limited.

- Announcement of the acquisition of Process Components Limited, which was completed on October 1st, 2021 and has since been merged with Rosco Petroavance Limited.

#### Acquisitions

During the year 2021, Agostini's announced three acquisitions:

##### Oscar Francois Limited and Intersol Limited

Founded in 1958 by Oscar Francois and his wife Alicia, Oscar Francois Limited grew to become a significant player in the pharmaceutical and consumer products business with a history for building strong brands and an enviable reputation as a solid and progressive family owned and operated business. In 1961, the company expanded into manufacturing with the establishment of Intersol Limited and today, the company's flagship brand, Diquez, is known across the Caribbean. As the company grew, Oscar and Alicia's four daughters joined the company, with two of them, Jacqueline and Jasmine, eventually taking the reins and building on the solid foundation established by their parents. Ten years after holding our first discussions, we are proud to make Oscar Francois and Intersol part of the Agostini's family. These acquisitions are expected to be accretive to earnings in 2022.

##### Process Components Limited (ProCom)

ProCom, formerly owned by Laughlin and De Gannes Limited, was established in 1982 as a supplier of industrial products and services to the energy industry in Trinidad and Tobago. Over the years, the company has grown to become a major provider to both the off-shore and on-shore energy industry as well as a supplier of industrial products and services. The company was built over the last 16 years by Mark Laughlin, a 3rd generation member of the Laughlin family, alongside a team of dedicated and experienced executives and employees. This acquisition, completed in October 2021, has been merged with Rosco Petroavance and is also expected to be accretive to earnings in 2022.

These acquisitions are very much in line with our strategic objective of expanding the operations of our three core business segments.

#### Operational Review

Our Group operates in three segments: Pharmaceuticals & Health Care, Fast Moving Consumer Goods and Industrial and Construction.

#### Pharmaceutical & Health Care

Our pharmaceutical and health care segment had another successful year, enjoying improved sales and profitability compared

to the prior year. During the year, and continuing into the new financial year, we have invested in new technology and digital systems to drive operational efficiency and improvements in customer service and convenience. The acquisition of Oscar Francois and Intersol will allow us to expand our product offering, especially in the areas of vitamins and nutritionals, baby care, eye care and veterinary products.

#### Fast Moving Consumer Goods (FMCG)

Overall, our FMCG business, Caribbean Distribution Partners, had a successful year with sales and profitability improving by 2% and 26% respectively. While our sales performance was not consistent across all markets, all of our operations posted improved profitability. Hanshell Innis in Barbados produced a significant improvement in profitability after a difficult 2020, and Vermco in Trinidad enjoyed another excellent year driven by new products, growth in exports and improved efficiency. Our pasta manufacturing operation has experienced significant headwinds in recent years and we have introduced various measures to improve efficiency and competitiveness. I would like to make special mention of Coreas Limited in St. Vincent, which, despite enduring twin natural disasters in Hurricane Elsa and the La Soufrière volcano eruption, during a pandemic, still managed to deliver improved results. The management and employees did a tremendous job in very difficult circumstances and are to be commended.

#### Industrial and Construction

This segment once again had a difficult year. The construction sector has been stagnant and the government-mandated closure for six weeks during 2021 put further pressure on our operations. At Rosco Petroavance, after a slow start to the year, we did see some improvements in the latter part due to increased activity in the local energy sector and increased prices for oil and natural gas. The acquisition of Process Components will broaden our product and service offering, expand our customer base and bring increased scale to our operations.

#### Dividend and Annual General Meeting

I am pleased to advise that your Board has approved a final dividend of 65 cents per share, bringing the total dividend for the year to 90 cents, compared to 80 cents paid in the prior year. The Company's register of members will be closed from January 4th to 7th 2022. Our Annual Meeting of Shareholders will be held on Monday 24th January, 2022 at 10:00 am, and due to the prudence of observing COVID-19 health protocols, this meeting will again be held virtually.

Details for connecting to this meeting will be on the Company's website, [www.agostinilimited.com](http://www.agostinilimited.com) at the beginning of January and will also be published in the newspapers.

#### Outlook

Overall, we remain positive about the Group's future. The segments in which we operate provide opportunity for growth and expansion, and our investments in recent years in our people, and in technology and infrastructure has us well positioned to deliver improved results over the long term. Our recent acquisitions are an excellent strategic fit with our Group's core businesses, and as mentioned earlier, are expected to be accretive to earnings from 2022.

#### Recognition

This year, during our Annual Operating Plan (AOP) meeting for 2022, one of our executives asked what I thought were the major contributing factors to Agostini's having a successful 2021. So as I offered my views, ranging from our strong portfolio of brands to the benefits of our decentralized corporate structure, the Group CEO chimed in and said, "I think it's because of our people." And I thought, "Of course...it's the PEOPLE, stupid!" It's always the people, and I would like to recognize and thank the management and employees of Agostini's for their leadership and dedication in a year that had no shortage of challenges.

I would like to express my gratitude to all of our customers and consumers who continue to support our companies and brands. Your trust and loyalty are never taken for granted and very much valued and appreciated.

In April 2021, Joanna Banks joined the Agostini's Limited Board of Directors as a Non-Executive Director. Joanna is the CEO of PanJam Investments Limited (PanJam), an investment holding company listed on the Jamaica Stock Exchange, and is a Chartered Financial Analyst with extensive experience in financial services and strategy. I once again welcome Joanna to the Board.

Finally, I would like to extend my personal thanks to the Group CEO for his unwavering leadership and to my fellow directors for their dedication, independence and counsel.

**Christian Mouffet**

## REPORT OF THE INDEPENDENT AUDITOR ON THE SUMMARY CONSOLIDATED FINANCIAL STATEMENTS TO THE SHAREHOLDERS OF AGOSTINI'S LIMITED

### Opinion

The summary consolidated financial statements, which comprise the summary consolidated statement of financial position as at September 30, 2021, the summary consolidated statement of comprehensive income, summary consolidated statement of changes in equity and summary consolidated statement of cash flows for the year then ended, and related notes, are derived from the audited consolidated financial statements of Agostini's Limited and its subsidiaries ("the Group") for the year ended September 30, 2021.

In our opinion, the accompanying summary consolidated financial statements are consistent, in all material respects, with the audited consolidated financial statements, on the basis described in Note 1.

### Summary Consolidated Financial Statements

The summary consolidated financial statements do not contain all the disclosures required by International Financial Reporting Standards ("IFRSs"). Reading the summary consolidated financial statements and the auditor's report thereon, therefore, is not a substitute for reading the audited consolidated financial statements and the auditor's report thereon.

### The Audited Consolidated Financial Statements and Our Report Thereon

We expressed an unmodified audit opinion on the audited consolidated financial statements in our report dated November 29, 2021. That report also includes the communication of Key Audit Matters. Key Audit Matters

are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period.

The audited consolidated financial statements and the summary consolidated financial statements do not reflect the effects of events that occurred subsequent to the date of our report on the audited consolidated financial statements.

### Responsibility of Management for the Summary Consolidated Financial Statements

Management is responsible for the preparation of the summary consolidated financial statements on the basis described in Note 1.

### Auditor's Responsibility for the Audit of the Summary Consolidated Financial Statements

Our responsibility is to express an opinion on whether the summary consolidated financial statements are consistent, in all material respects, with the audited consolidated financial statements based on our procedures, which were conducted in accordance with International Standard on Auditing (ISA) 810 (Revised), Engagements to Report on Summary Financial Statements.
